

Version Change Details for version 4.1 of the NSHP CECPV Calculator

NSHP applications must use a version of the NSHP CECPV Calculator that is shown as “certified” on the date the NSHP application is postmarked (or date of submission for electronic NSHP applications). A table of certified versions of the CECPV calculator is maintained on the Energy Commission’s website.

Version 4.1 Released January 23, 2014

- Renamed the compliance form NSHP PV-1 from CF-1R-PV
- Version 4.1 shall only be used for NSHP projects with buildings that meet or exceed the 2005 or 2008 updates of the *California Building Energy Efficiency Standards*.
- No change to incentive calculation methodology
- Incentive Levels 1 through 3 are now displayed in the table of incentives found on both the Results page and the last page of the NSHP PV-1.
- Additional PV modules and inverters
- The per site and application total kW AC system size, Annual kWh, and Annual TDV kBtu are displayed on the last page of the NSHP PV-1.
- Removed the signature block for both the Homeowner/Builder/Developer or Applicant’s Authorized Representative and the Documentation Author as signatures are no longer required on this form.
